

Discover HOW GOD IS AT WORK IN HIS CREATION

PRESENTING BIBLE/SCIENCE SERMONS, SEMINARS AND DEMONSTRATIONS

Dr. Matzko's goals are to

- **Present the truth of God's Word** regarding Creation and science through preaching, teaching and amazing science demonstrations.
- **Assist pastors** by speaking on Bible/science topics, including Creation/evolution, and by answering questions from the congregation.
- **Challenge Christian students** about the importance of science and scientific careers.
- **Answer questions**
 - Was there an Ice Age? When?
 - How did Pluto become a traitor to the evolutionary cause?
 - How can the global warming debate be used to glorify the Creator?
 - How should we respond to the growing theistic evolution and progressive creation movements?

Dr. George Matzko

About the BJU Science Ambassador

George Matzko earned a BS in Chemistry in 1973 from Bob Jones University. In 1978 he completed his PhD in Analytical Chemistry from Clemson University. As a research chemist at Continental Forest Industries, he worked on paperboard production projects. He then joined the BJU faculty in 1979 and became chair of the Department of Chemistry in 1981 and chair of the Division of Natural Science in 1995. He is a member of the American Chemical Society and the Creation Research Society.

For 32 years, George and his wife, Darlene, served on BJU summer mission teams: Nova Scotia (1981–89) and Australia (1995–2017), where he regularly spoke on the Bible and science in churches, schools and camps. He also taught Sunday school at Cornerstone Baptist Church in Greenville, South Carolina.

George's commitment to a literal six-day Creation carries an essential message that it's not science vs. Scripture, but science in Scripture that glorifies our Lord Jesus Christ and honors Him as the Creator. This is his passion.
